## MEDICINAL.

Each of the chief organs of the body is a link in the chain of life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of heart or lungs, liver or kidneys, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of disease of the stomach and other organs of digestion and nutrition. Diseases of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition are cured also.

"I was in poor health when I commenced taking Dr. Pierce's medicine," writes Mr. Elmer Lawrence, of Volga, Jefferson Co., Ind. "I had stomach, kidney, heart, and lung troubles. Was not able to do any work. I had a severe cough and hemorrhage of the lungs, but after using your medicine a while I commenced to gain in strength and flesh, and stopped coughing right away. Took about six bottles of Golden Medical Discovery. I feel like a different person. I gladly recommend your medicine to all sufferers, for I know it cured me."

The use of Dr. Pierce's Pleasant Pellets will cure that foul breath.

## FOR VIRGINIA'S SCHOOLS.

The following is the report of the committee on education presented to the constitutional convention yesterday by Delegate Richard McIlwaine, the chairman:

Section 1. The General Assembly shall establish and maintain an efficient system of public free schools throughout the State.

Section 2. The general supervision of the public free school system of the State shall be vested in a superintendent of public instruction and a board of education, to be composed of the Governor, Attorney General, chairman of the faculty of the University of Virginia, president of the college of William and Mary, president of the Virginia Polytechnic Institute, president of the State Female Normal School, at Farmville, and the superintendent of the Virginia Military Institute; provided, however, that should the State fail to make appropriation to any of said institutions, the chairman of the faculty, the president or superintendent of such institution, shall cease to be a member of said board.

Section 3. The superintendent of public instruction shall hold office for a term of four years and his duties and compensation shall be fixed by law. He shall be ex officio president of the State board of education.

Section 4. The duties and powers of the State board of education shall be as follows:

First--It shall, subject to the confirmation of the Senate, appoint a superintendent of public instruction and all superintendents of city and county public free schools and may remove superintendents for cause and upon notice to the incumbent; provided that no removal of a superintendent except the ex officio president, shall be eligible for appointment to the office of superintendent of public instruction during his term of office, nor within one year after the expiration of same.

Second--It shall have, regulated by law, the management and investment of the school fund.

Third--It shall have authority to make all useful rules and regulations for the management and conduct of the public free schools, which regulations when published and distributed shall have the force and effect of law; but all rules and regulations of said board may be amended or repealed by the General Assembly, and when so amended or repealed shall not be re-enacted by the said board.

Fourth--It shall select text books and educational appliances for use in the public free schools of the State; provided, that the school boards of cities of the population of 5,000 or more shall choose the books and appliances for their schools, subject to such rules or regulations as the State board of education shall prescribe.

Fifth--It shall appoint a board of directors, consisting of five members, in which shall be vested the management of the State Library, and the appointment of a librarian and other employees hereof, subject to such rules and regulations as the General Assembly shall prescribe.

Section 5. Each magisterial district shall constitute a separate school district unless otherwise provided by law. In each school district three school trustees shall be elected by the people, whose terms of office shall be four years.

Section 6. The General Assembly shall set apart as a permanent and perpetual literary fund the present literary funds of the State, the proceeds of all public lands donated by Congress for public free school purposes, of all escheated property, of all waste and unappropriated lands, of all property acquired by the State by forfeiture, and all fines collected for offenses committed against the State, and such other sums as the General Assembly may appropriate.

Section 7. The General Assembly shall apply the annual interest on the literary fund, that portion of the capitation tax provided for in this constitution to be paid into the State treasury, and an annual tax on property of not less than one nor more than five mills on the dollar to the public free schools of the primary and grammar grades, for the equal benefit of all the people of the State, to be apportioned on the basis of school population, the number of children between the ages of seven and twenty years in each school district being the basis of such apportionment. Each city, town (if the same be a separate school division), county, and district is authorized to raise additional sums by a tax on property not to exceed in the aggregate five mills on a dollar in any one year to be apportioned and expended by the local school authorities of said cities, towns, counties, and districts establishing and maintaining such schools as in their judgment the public welfare may require; provided, that such primary schools as shall be established shall be maintained at least four months of each year before any part of the fund assessed and collected may be devoted to the establishment of schools of higher grade. The board of supervisors of the several counties, and the common councils of the several cities and towns (where the same be separate school divisions) shall provide for the collection of the said local school taxes.

There's reason enough for the greatly increased volume of business coming to this ladies' ready-to-wear department--for it has never been so splendidly able to serve you, and save you to your abundant satisfaction.

Just now most of the selling emphasis is placed on the big showing of the \$12.50 Tailor-made Suits--and at the price we can assure you that better values and more high-class garments never came from the tailors' hands. There's a considerable display of styles, fabrics and colors--Eton and long coat effects.

A Rush for Raglans.

Surprising what a run the Raglans are having, and the prediction is being made good that the smartest of the season's wraps and the wrap which has the decided approval of fashion would be the Raglan. They're here in the loose back and half-tight style in all the colors--red, blue and black--and high grade in every respect; the price here is \$12.50 the prevailing price for such a garment; the price here is \$12.50.

Women's Skirts, Better-than-ever Showing.

We might write columns about this skirt department, and then tell but half the story. There's a world of meaning in the volume of selling--shows the popularity of the Hecht-made and Hecht-sold skirts, and shows how greatly below the usual level are the prices. If you're the buying of a skirt in mind you'll appreciate what we can show you.
